Maximizing Profits with PushButton AI, Simple Path to Profit, and Commission Engine: The Ultimate Synergy for Exponential Growth

Discover the ultimate synergy for exponential growth by combining these powerful platforms. This presentation outlines strategies for various platform combinations, helping you unlock new revenue streams and scale your online business.

How They Work Together

If You Own PushButton AI and Commission Engine

2 **Create Courses with Confidence**

Once a topic is validated through Commission Engine, use PushButton AI to create a course tailored to that proven demand.
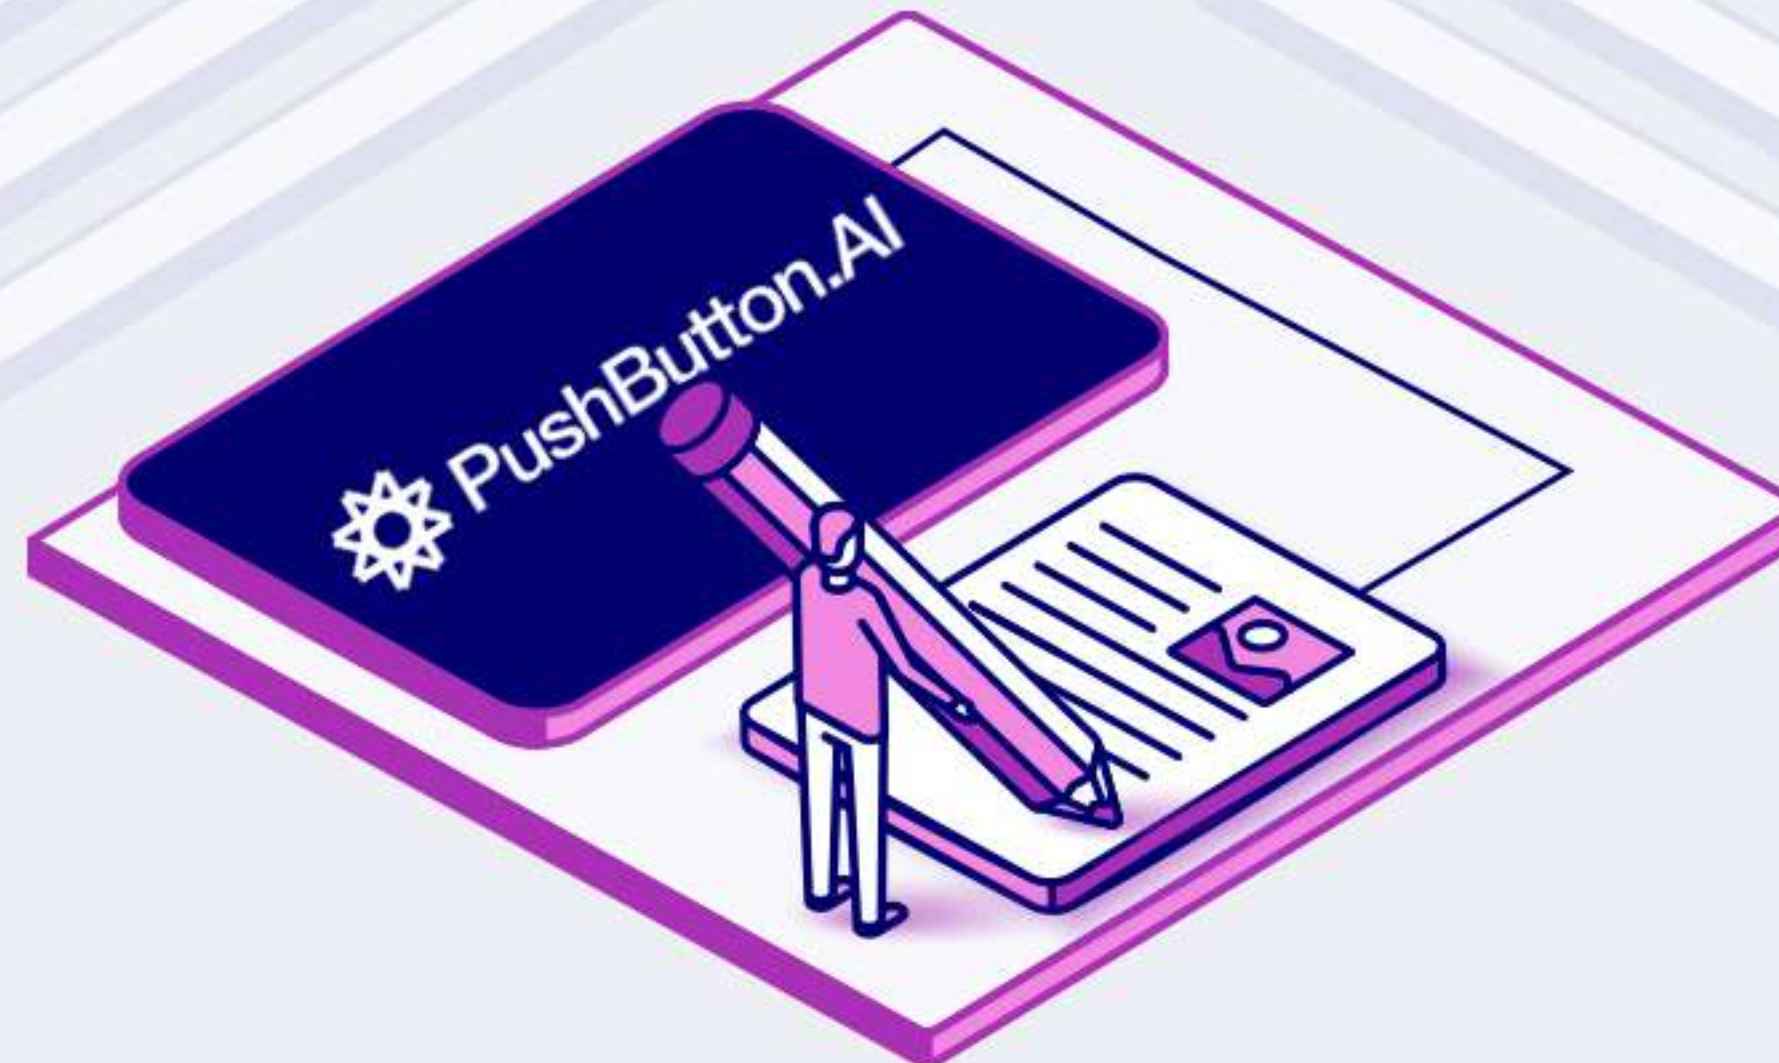

1 **Test and Validate Niches**

Use Commission Engine to promote affiliate products in various topics. Track which products perform best to identify high-demand areas.

3 **Maximize Profits**

Promote both your affiliate offers (via Commission Engine) and your own courses (via PushButton AI) for diversified income streams.

Action Plan

Use Commission Engine to promote 5-10 affiliate products in a targeted area.

Track the top-performing offers and identify what's driving sales.

Build courses with PushButton AI based on the successful topics.

Promote your course alongside affiliate offers to increase revenue.

If You Own PushButton AI and Simple Path to Profit

How They Work Together

Build and Monetize a List

Use Simple Path to Profit (SPP) to rapidly grow a targeted email list in the "make money online" or business-building niche. For even faster growth, reinvest the commissions earned from promoting Bill's products back into SPP to significantly expand your list and maximize your results.

Sell Directly to Your Audience

Create courses with PushButton AI that addresses specific challenges in the business-building niche, and promote it to your SPP email list.

Monetize Non-Buyers

If leads don't buy a certain course, use Commission Engine (if added later) to promote affiliate products relevant to their goals.

1

Use PushButton AI to create a course focused on a key business-building strategy (e.g., affiliate marketing, creating digital products, etc).

2

Once you have leads coming in from your SPP solo ad buys, grab the 10 titles and a summary paragraph from your PBAI course modules and have ChatGPT create 3 emails for each of the 10 modules.

3

Drop those emails into your autoresponder, promoting your course to your list

Action Plan

If You Own Commission Engine and Simple Path to Profit

How They Work Together

1

Build a Targeted Audience

Use SPP to collect email addresses from people interested in the "make money online" or business-building niche.

2

Promote Affiliate Products

Use Commission Engine to recommend and promote products tailored to their interest in business growth, earning commissions from proven offers.

3

Gather Insights for Future Courses

Track which products perform best with your SPP audience. Use these insights to create a course or digital product if PushButton AI is added later.

Action Plan

Use Commission Engine to create a course focused on a key business-building strategy (e.g., affiliate marketing, creating digital products, etc).

Once you have leads coming in from your SPP solo ad buys, grab the 10 titles and a summary paragraph from your CE course modules and have ChatGPT create 3 emails for each of the 10 modules.
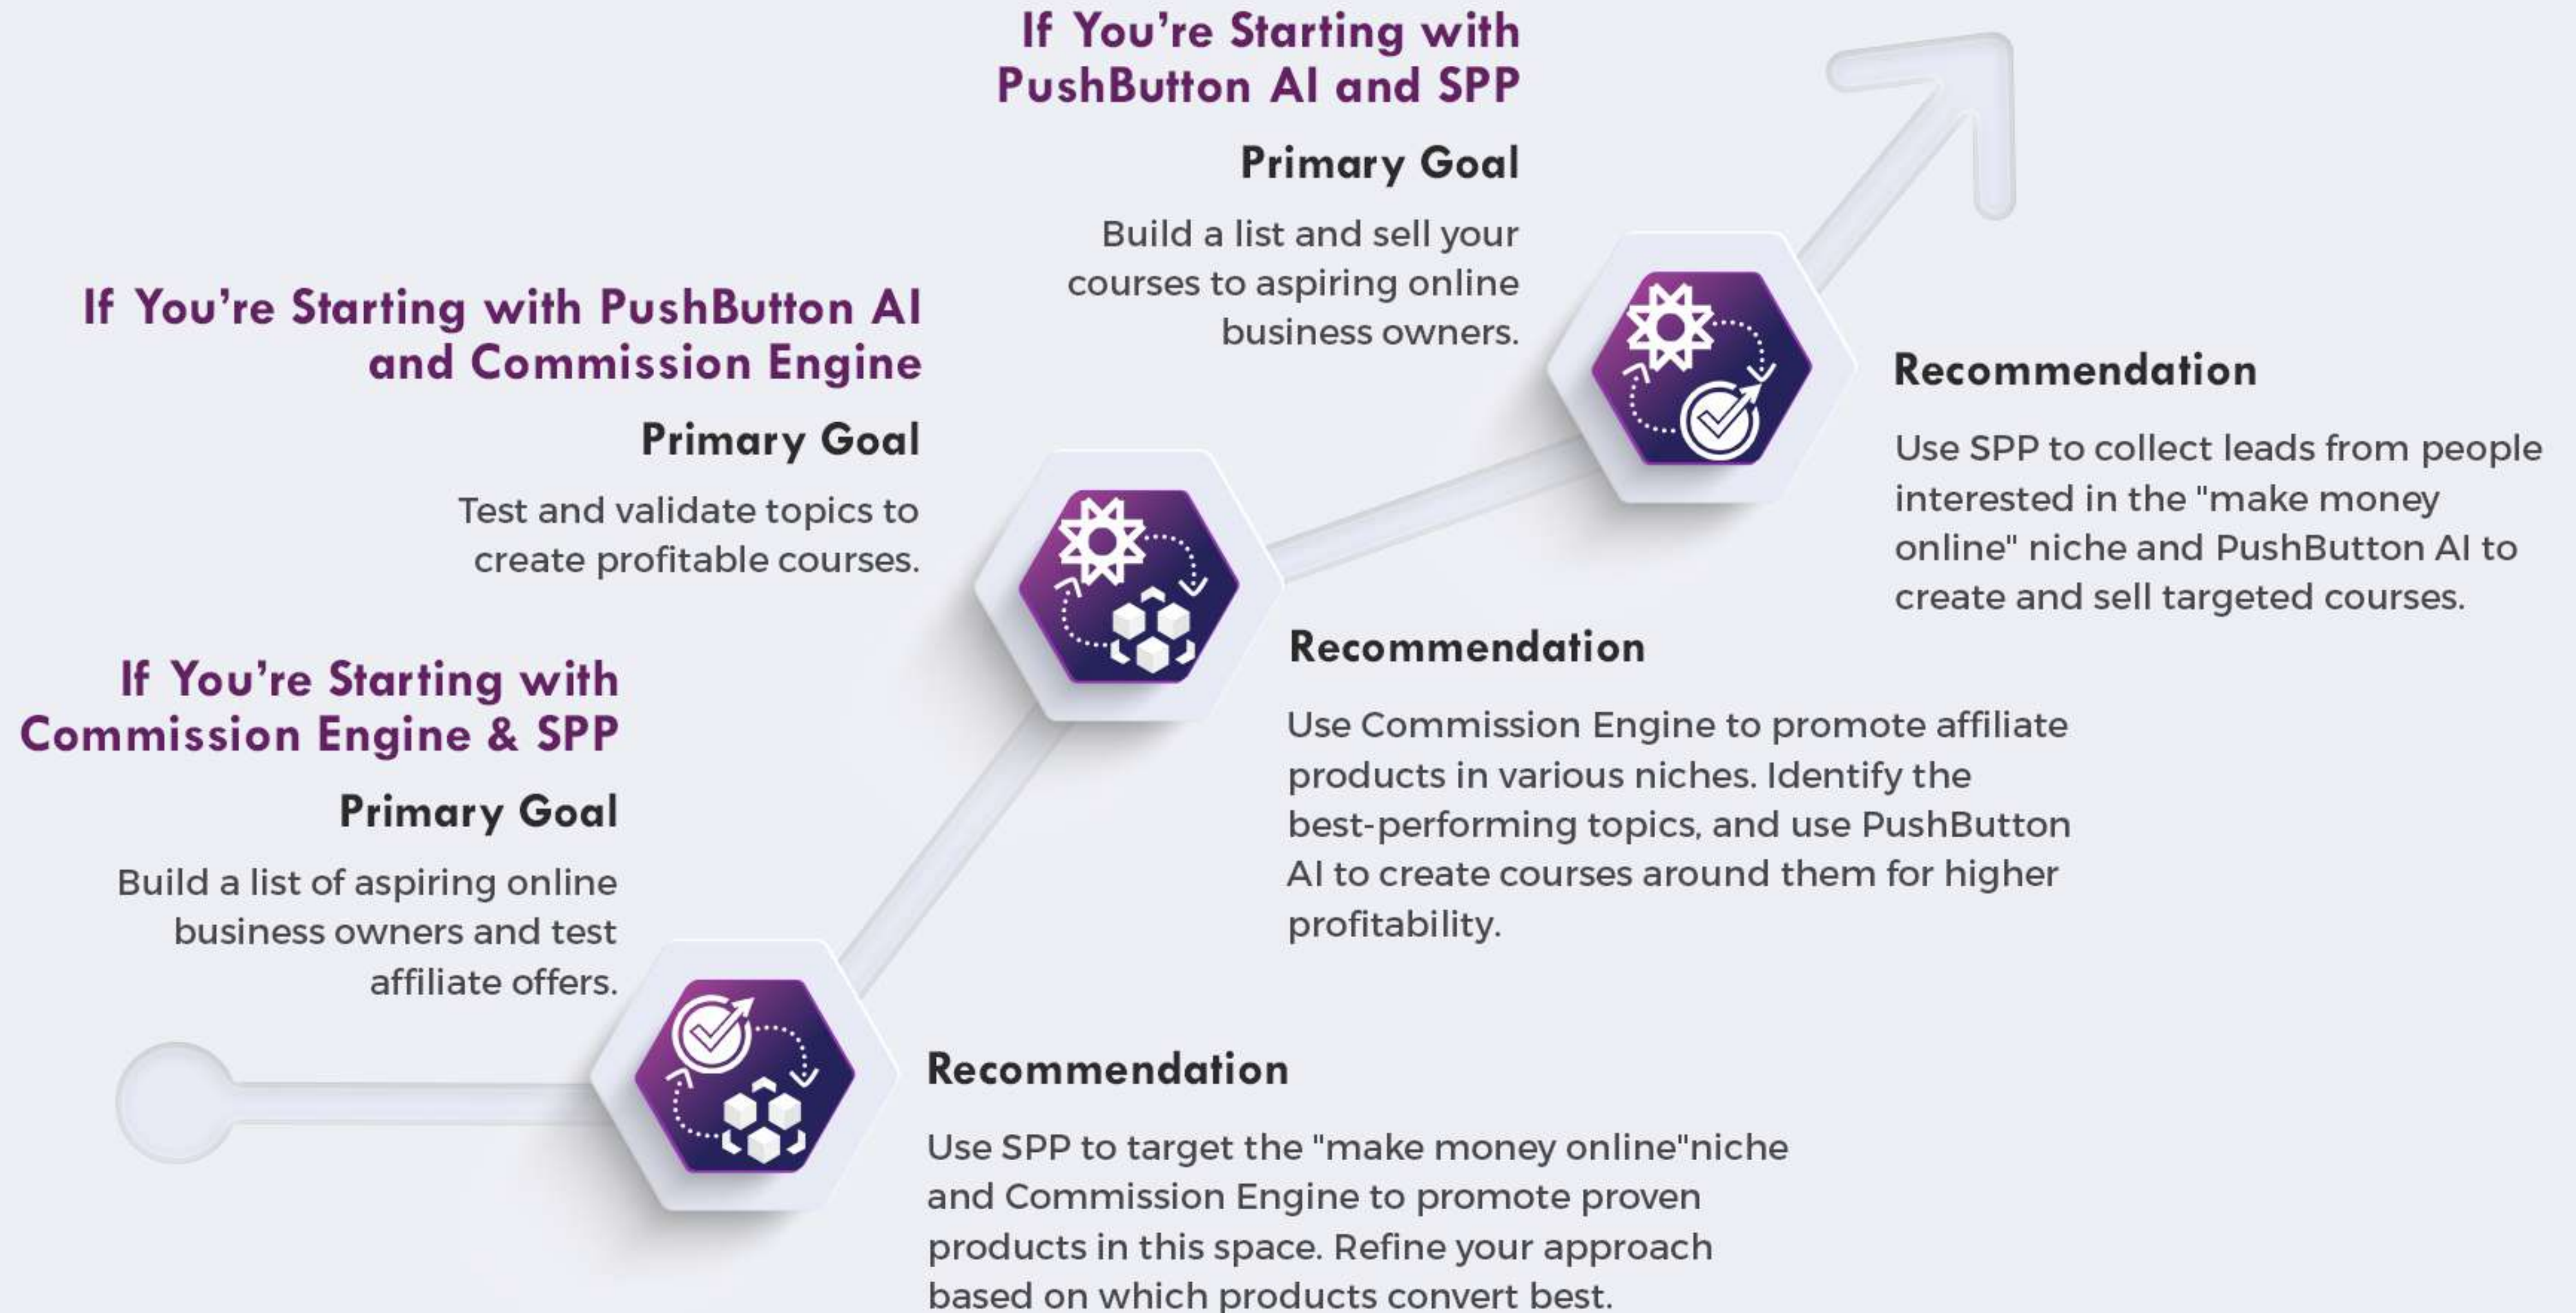

Drop those emails into your autoresponder, promoting your course to your list

Once you see what affiliate products are most successful, create more emails to promote them to your SPP list. Drop any emails from unsuccessful affiliate products until you can test other affiliate products on thoses pages. You could also replace your unsuccessful affiliate links with successful ones.

Summary for Owners of Two Platforms

If You're Starting with PushButton AI and SPP

Primary Goal

Build a list and sell your courses to aspiring online business owners.

Recommendation

Use SPP to collect leads from people interested in the "make money online" niche and PushButton AI to create and sell targeted courses.

If You're Starting with PushButton AI and Commission Engine

Primary Goal

Test and validate topics to create profitable courses.

Recommendation

Use Commission Engine to promote affiliate products in various niches. Identify the best-performing topics, and use PushButton AI to create courses around them for higher profitability.

If You're Starting with Commission Engine & SPP

Primary Goal

Build a list of aspiring online business owners and test affiliate offers.

Recommendation

Use SPP to target the "make money online" niche and Commission Engine to promote proven products in this space. Refine your approach based on which products convert best.

Strategy and Action Plan for Owners of All Three Platforms

How They Work Together

Build Your Audience (SPP)

Use SPP to create a site targeting people in the "make money online" niche and collect their email addresses.

Test Niches (Commission Engine)

Promote affiliate products through Commission Engine to your SPP email list. Track which offers perform best to understand your audience's needs.
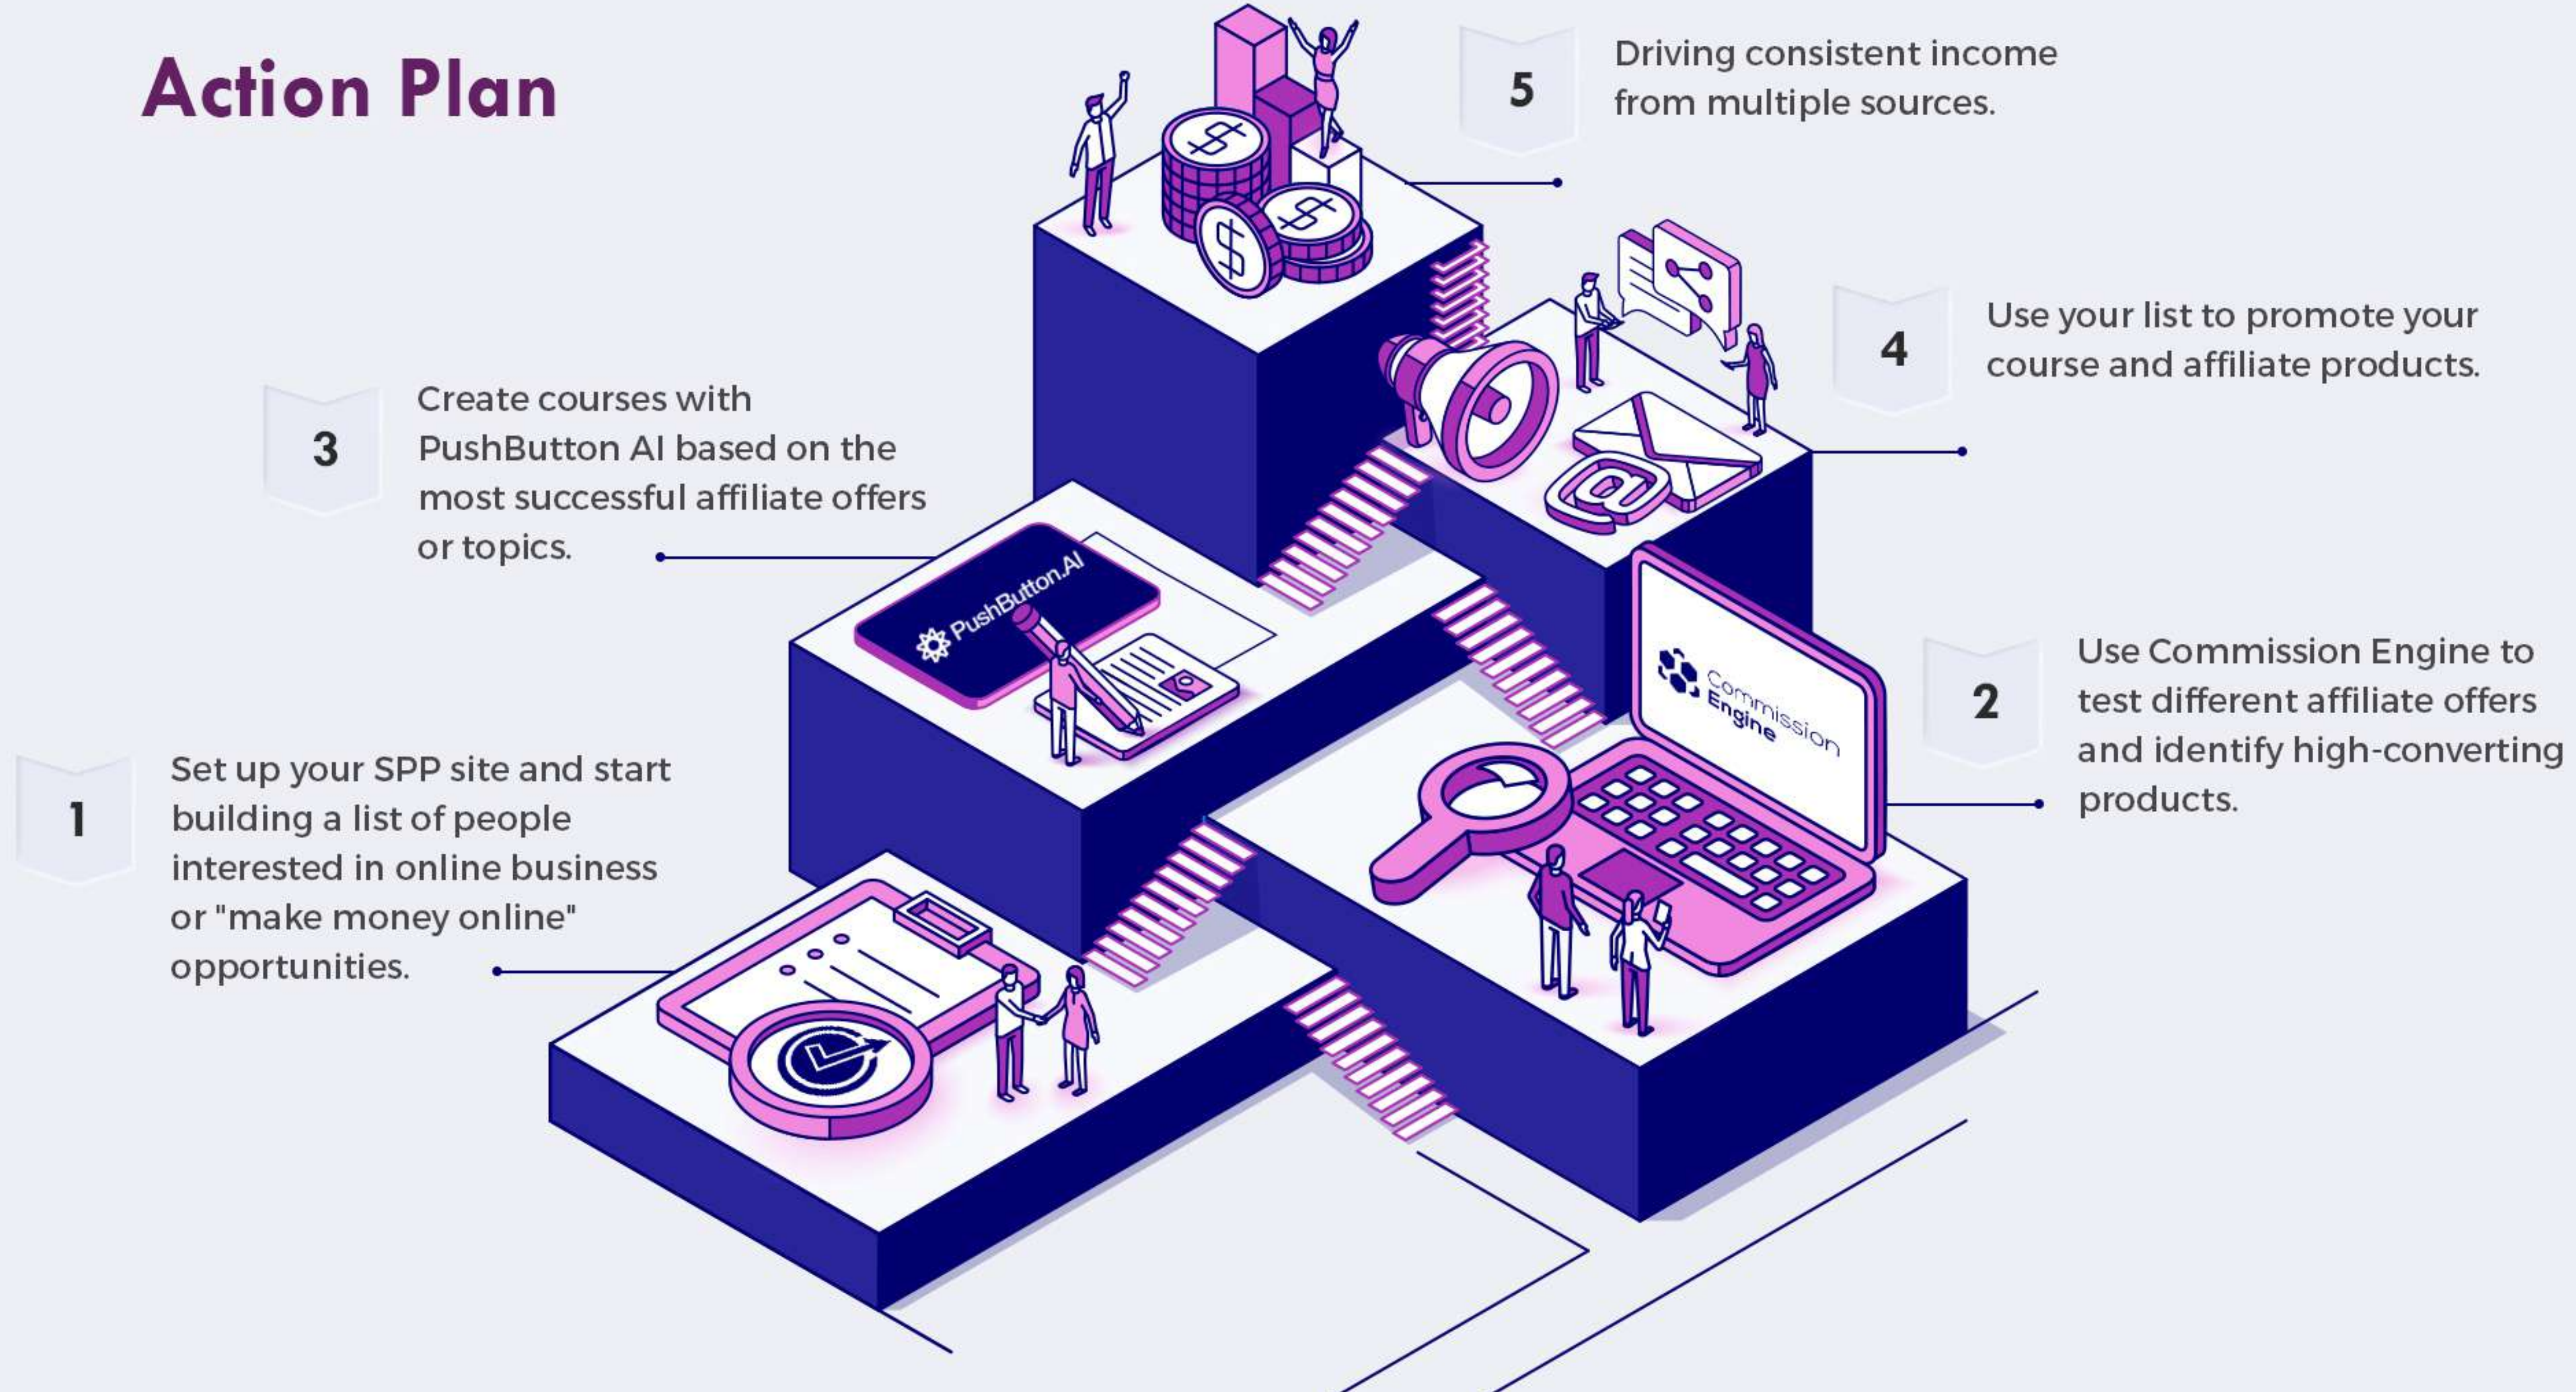

Create Courses (PushButton AI)

Use the data from Commission Engine to create courses with PushButton AI that solves a specific challenge your audience faces.

Cycle Through the Process

Continuously use SPP to build your list, Commission Engine to test affiliate offers, and PushButton AI to create new courses, scaling your business over time.

Action Plan

5 Driving consistent income from multiple sources.

4 Use your list to promote your course and affiliate products.

3 Create courses with PushButton AI based on the most successful affiliate offers or topics.

2 Use Commission Engine to test different affiliate offers and identify high-converting products.

1 Set up your SPP site and start building a list of people interested in online business or "make money online" opportunities.
